PROFESSIONAL PROFILE

Final-year Bachelor of Information and Communication Technology student at Management and Science University with a 3.65 CGPA, seeking a six-month internship starting in July or August 2026. Hands-on experience building full-stack web, Android, computer-vision, and IoT prototypes. Developed role-based applications using Java, TypeScript, Next.js, Supabase, Firebase, LiveKit, Python, OpenCV, and ESP32 hardware. Combines practical software development with strong communication, documentation, tutoring, academic operations, and user-support skills.

SELECTED TECHNICAL PROJECTS

SchoolShield - AI-Based School Safety and Incident Monitoring System

| Final Year Project, 2026

Android (Java), Firebase, Python, OpenCV, YOLO, ESP32C3, MPU6050 | [GitHub](#)

- Engineered an end-to-end safety monitoring prototype connecting a native Android application, Firebase cloud services, an external computer-vision node, and an IoT wristband sensor.
- Built Android workflows for authentication, live incident feeds, severity-based alerts, incident details, sensor/source monitoring, user profiles, and administrator video-evidence review.
- Implemented Firebase Authentication, Realtime Database listeners, Cloud Messaging, and a foreground alert-monitoring service with critical sound, vibration, and direct navigation to incident records.
- Developed analytics views for risk-zone ranking, monthly incident trends, source breakdowns, student wristband risk monitoring, and downloadable monthly PDF reports.
- Created a Python/OpenCV laptop node that accepts webcam or RTSP CCTV input, performs YOLO person detection with HOG fallback, classifies interaction risk, records evidence clips, and sends incidents to Firebase through background I/O.
- Prototyped an ESP32C3 and MPU6050 wristband that analyzes motion and impact patterns, synchronizes remote thresholds, publishes device heartbeats, and creates medium/high risk incidents in real time.

Math Tutor - Real-Time Online Tutoring Platform

Next.js 16, TypeScript, React, Tailwind CSS, Supabase, LiveKit, Expo | [Live Demo](#) | [GitHub](#)

Demo teacher login: demo.teacher@mathtutor.test | **Password:** DemoTutor2026!

Demo student login: demo.student@mathtutor.test | **Password:** DemoStudent2026!

- Built and deployed a laptop-first tutoring platform with separate admin, teacher, and student workflows backed by Supabase Auth and Postgres.
- Implemented administrator-only account creation and teacher-student assignment, teacher session creation with unique join codes, and student access restricted to assigned active lessons.
- Integrated LiveKit video rooms with camera/microphone controls, local and remote video tiles, participant status, reconnect handling, and short-lived server-generated room tokens.
- Developed a synchronized whiteboard and interactive worksheet using reliable LiveKit data-channel messages, revision tracking, and stale-snapshot protection.

- Added a persistent shared lesson timer, joined-student tracking, password recovery and change flows, role-aware dashboards, and responsive classroom controls.
- Maintained both a browser-first Next.js application and an Expo/React Native foundation for future cross-platform mobile or desktop delivery.

Portfolio Website - Personal Developer Portfolio

HTML5, CSS3, JavaScript, GitHub Pages | Portfolio: <https://zarul47945.github.io/>

- Designed and deployed a responsive five-section portfolio website covering About Me, Experience, Projects, Extracurricular & Community Engagement, and Contact.
- Built dedicated detail pages for projects, work experiences, and community engagement with clickable image galleries, mobile-friendly layout, and downloadable CV access.

PROFESSIONAL EXPERIENCE

Assistant Branch Manager

| Jul 2025 - Apr 2026

HOME Terapi Matematik, Seksyen 9, Shah Alam

- Monitor tutor lesson delivery, syllabus coverage, SOP compliance, and daily academic operations to support consistent service quality.
- Coordinate with tutors, assist with complex Mathematics topics, and help align lesson materials and teaching approaches with student needs.
- Support branch-level problem solving and communication across tutors, students, and academic operations.

Math Tutor

| Jul 2024 - Present

HOME Terapi Matematik, Seksyen 9, Shah Alam

- Teach secondary Mathematics from Form 1 to Form 5, including exam-focused practice and Higher Order Thinking Skills questions.
- Assess student progress, identify learning gaps, and adapt step-by-step explanations to different ability levels.
- Prepare structured exercises and revision materials while reinforcing confidence, accuracy, and independent problem-solving habits.

Mathematics Teacher / Part-Time SPM Support

| Jan 2026 - Present

SMI IQKL

- Served as a replacement Mathematics teacher from 1 January to 31 March 2026, then continued part-time from 1 April 2026 supporting SPM students.
- Deliver focused exam support, guide problem-solving practice, and prepare targeted revision activities to build student confidence.

EDUCATION

Bachelor of Information and Communication Technology (BICT)

Management and Science University (MSU), Shah Alam

| Feb 2024 - Jan 2027 (Expected)

- CGPA: 3.65/4.00 through Semester 6.

Diploma in Occupational Safety and Health (DOSH)

University of Cyberjaya

| Sep 2019 - Oct 2022

- CGPA: 3.65/4.00.

EXTRACURRICULAR & COMMUNITY ENGAGEMENT

Coordinator - Creative Presenters: PowerPoint and Canva Workshop

| 20 Nov 2025

- Coordinated team communication, meeting follow-up, workflow support, and liaison with HOME Shah Alam for a school-age digital literacy workshop.
- Helped participants learn presentation design and Canva poster creation through a "Say NO to Cyberbully" project, providing hands-on guidance and supporting final presentations.

Participant - Cybershield Ramadan FISE CSR Program

| 7 Mar 2026

Kampung Olak Lempit, Sinar Ramadan 9.0

- Supported community engagement and knowledge sharing on online scam awareness and digital income opportunities using TikTok and Shopee affiliate platforms.
- Assisted with house-to-house Barakah Pantry donation distribution to asnaf families, strengthening empathy, teamwork, and communication with a mixed community audience.

Assistant Program Manager - Hearts for Hope CSR Fundraising Program

| 22 Jul - 2 Aug 2024

MSU & Rumah Amal Budi Bistari

- Supported and monitored the Activity and Logistics teams during an orphanage fundraising initiative.
- Helped coordinate fundraising activities, materials, transportation, task delegation, progress updates, and engagement activities with children.
